

PERSONAL DATA PROTECTION

Your company processes personal data.

Do you already have an information security administrator (data protection officer, DPO) in your company?

Do you know what DPO is and what are its duties?

Are you prepared for the upcoming changes?

SSW provides comprehensive services regarding the functioning of DPO in respect of:

- DPO Appointments
- DPO Qualifications
- DPO Obligations
- DPO Structure
- DPO Position within the company
- DPO Training.

Our Offer of services aims to:

- avoid the risk of adverse consequences flowing from non-compliance with legal regulations
- effectively resolve problems concerning personal data protection
- raise awareness and foster a culture of personal data protection within the organization.

It is a good idea now to check how you comply with applicable regulations on the processing of personal data and prepare for the coming changes.

More information regarding the status of DPO and the planned legal amendments in this area may be found in the article below.
